### ABOUT US

Bay Zoltán Nonprofit Ltd. was founded in 1993 as an applied research public foundation, and named after a famous Hungarian researcher, who invented the electron multiplier, and set up the first successful Moon-radar experiment.

Bay Zoltan Nonprofit Ltd.(BZN) has by the present become the largest and most successful institute of applied research in Hungary, and as an active participant of several years in EU framework programmes and industrial partnerships, and collected a wide range of experiences on taking research results forward to the market.

To support enterprises, BZN as a state-owned research institute offers complex scientific and technical solutions to achieve a more efficient and fruitful operation for our domestic and foreign partners. We play the role of a bridge of innovation for our partner institutes through the activities of applied research-development and technology transfer.

BZN is an associate partner of the EIT KIC Raw Matters and EIT KIC Inno-Energy and participates in several development, outreach and education project in the fields of raw materials and energy.

BZN is a member of the H2020 AgriForValor consortium and will lead the setting up of the Bimoass Innovation Design Hub in Hungary in 2016.

### AREAS OF ACTIVITY

#### SERVICES

- Research

#### TECHNOLOGIES

- Biotechnology
- ICT (Internet, Telecom)
- Life Sciences, Medicine & Pharmaceuticals Mechanical engineering
- New Materials

#### INDUSTRY

- Agriculture
- Biotechnology
- Chemical & synthetic
- Energy
- Health
- ICT & Telecom
- Machine industry
- Materials
- Raw Materials
- Transport & logistics
