

France, EE-12-2017

SAFT develops and manufactures Advanced technology battery solutions for multiple applications: transportation, telecom, Grid, civil electronic, industrial standby, space and defence.

SAFT has a broad portfolio of technologies (Ni-based, Primary Lithium and Lithium-ion)

Topics

EE-12-2017:

Integration of Demand Response in Energy Management Systems while ensuring interoperability

EE-20-2017:

Bringing to market more energy efficient and integrated data centres

LCE-04-2017.:

Demonstration of smart transmission grid, storage and system integration technologies with increasing share of renewables
