

R&D Profile Form

Name of the Organisation	ITALYCAR Ltd.
Organisation Short Name	ITALYCAR
Organisation Type	Ltd.
Country	italy
Fields of Activity	design, manufacture and marketing of electric vehicles
Skills and Expertise Offered	Electric Vehicles powertrain, managing power system. We designed an innovative Patented high efficiency powertrain system, and developed technical specifications for electronic power control in order to manage energy maximizing power and efficiency
Keywords	Energy efficiency, Electric Vehicle, powertrain, Green vehicle, Electric light vehicle concepts, transit, Transportation, powertrain automotive design and development, bus, design innovative public transport, zero-emission vehicles, smart grid,
Previous FP Projects Participated	none
Topic(s) Interested	GV.8-2015. Electric vehicles' enhanced performance and integration into the transport system and the grid GV.6-2015. Powertrain control for heavy-duty vehicles with optimised emissions GV.5-2014. Electric two-wheelers and new light vehicle concepts GV.2-2014. Optimised and systematic energy management in electric vehicles MG.5.5-2015. Demonstrating and testing innovative solutions for cleaner and better urban transport and mobility MG.3.2-2014. Advanced bus concepts for increased efficiency MG.3.1-2014. Technologies for low emission powertrains
Contact Person	Fabio Sorze
Position in the Organisation	unique administrator, chief engineer
