

Partner offer (competences/expertise)

ANEA, The Naples Agency for Energy and the Environment, is an independent, non-profit organization aiming to promote the rational use of energy, disseminate renewable energy sources and protect the environment. ANEA is reference point for local authorities, energy producers and distributors companies, enterprises, public associations and citizens and it is able to involve both private companies, public authorities at national, regional e local level (municipalities), research centres and universities. It offers, also, specialized information, training, applied research and technical assistance on energy and environment sector to its stakeholders, with the organization of training courses aimed at innovative professional figures such as Energy Managers. Within European Sustainable Energy Week, ANEA organizes events to engage and raise awareness citizens about energy saving and giving information and advice on rational and responsible use of energy. ANEA is committed in the development of plans for renewable sources (solar, wind, biomass, etc.), the implementation of measures to improve the energy efficiency of buildings, energy auditing and certification for buildings.

ANEA is been involved in many European and national projects about energy, renewable energy, sustainable mobility and training (www.shaams.org; www.buildupskills.eu). ANEA is involved in the drafting and implementation of SEAP of Municipality of Naples and other Municipalities in the Campania Region and has supported the setup of Naples Smart City Association. In addition, ANEA leads the Italian Network of Local Energy Agencies (RENAEL) that gather more than 30 Energy Agencies of all over Italy.
