Good afternoon,

According to the statements from the website <u>www.research.ro</u>, section Horizon 2020 - Do you need partners for Horizon 2020, we are sending the following request in order to help us to find partners for a project:

Proposal title: Innovative municipal waste sorting station

Topic: WASTE-6a-2015 Eco-innovative solutions **Call**: H2020-WASTE-2015-two-stage - WASTE: A RESOURCE TO RECYCLE, REUSE AND RECOVER RAW MATERIALS

Summary of the proposal

Our organisation is looking for 2 partners (e.g. : research institutes or research centers) in order to develop a pilot sorting station for municipal and urban waste in Romania that will have a waste recovery rate ranging between 95% and 100%. Since in Romania the waste sorting process can be highly improved through research, we are looking for partners with experience in the following areas: waste management, waste sorting, municipal and urban waste recovery. The pilot station will be innovative, efficient and easily replicable.

<u>Project's objectives:</u>

- sorting high quantities of municipal waste;
- recovering most of the municipal waste added into the station;
- minimizing human resources contribution.

Previous international projects and activities

The organisation has started various projects (in colaboration with another organisations) in Mauritania and Moldova, projects consisting of building blocks or providing thermal insulation for the existing buildings. Furthermore, the organisation is developing a strategy for recycling raw materials from products and buildings.

Also, the organisation has colaborated with international entities which offered finance for areas like: renewable energy, environmental protection, green energy, health. Mainly, the organisation elaborated proposals for projects in the areas mentioned.
