ABOUT US

Representing Aerosol & Particle Technology Laboratory (APTL) of CERTH. Aerosol and Particle Technology Laboratory

APTL was established in 1996 within [CPERI/CERTH](#) with the rationale that the solution of many **environmental, health, energy, materials** and **process industry** related issues relies on understanding and exploiting the science of fine particles and their suspensions in various media.

Recognizing the opportunities offered by this diverse, yet based on common grounds, set of applications, our objectives are to conduct **basic and applied research** as well as to **develop new technological products** in these niche areas, responding to well acknowledged market needs in the areas of **clean transport, clean energy** and **in-situ process monitoring**
