## ARRB Group

Vermont Sth, Others

**Gerard Waldron**, Managing Director

- [Organisation Information](#)

ABOUT US

ARRB applies research outputs to develop equipment that collects road and traffic information, and software that assists with decision-making across road networks. ARRB is the leading provider of road research and best practice workshops in Australia.

ARRB's member organisations include federal, state and local government bodies responsible for managing the nation's transport and road networks and the New Zealand Transport Agency. ARRB and its members, both individually and collectively as Austroads, recognise the critical role that they play in supporting one another to improve productivity, safety, sustainability and amenity outcomes for the community.

Our values

ARRB is guided by a set of values that support the needs of members and customers. We collaborate with our members to bring out the best in each other; we understand what matters most to members and customers; and we respect people for who they are and for their knowledge, skills and experience.

We also understand the challenges facing members and provide relevant insights and advice; we foster innovation and undertake world-class research that benefits all road users; and we strive to uphold the highest professional standards while providing sound advice from a position of independence.

Our expertise

ARRB's capabilities cover the full spectrum of road transport operations including:

1. materials, pavement and concrete design and testing
2. transport policy, operations and economics
3. infrastructure asset management
4. bridge management and evaluation
5. equipment manufacture and data collection services
6. Safe System
7. traffic engineering, parking and road design
8. heavy vehicle testing and simulation
9. impacts of climate change
10. land transport resources and information
11. knowledge transfer and capability.

AREAS OF ACTIVITY

### Market application

- Automated Road Transport
- Safety
- Infrastructure
