ABOUT US

CML Leading Innovation Assessment (**CML**) are an Engineering & Consulting company founded in January 2012. This local and international innovative consultancy provides commercial and planning, programming services across all sectors of the industry, supporting and serving investors and financiers, employers, suppliers, advisors, central & local government departments, sub-contractors and contractors alike.

CML provide the following services:

- feasibility studies
- due diligence
- programme and compliance audits
- cost verification reports
- claim management
- contractual risk assessments
- life-cycle management
- business strategy
- knowledge transfer
- trainings and seminars
- project closure

The knowledge of more than 10 senior commercial, programming, engineers consultants is the most valued asset **CML** have and by managing feedback from staff experiences **CML** do not have to reinvent the wheel on any commission undertaken.

CML core services are:

- **Tender Stage:** Programmes; contract advice and reviews; estimating and risk identification and mitigation.
- **Contract Stage:** Commercial and programme management; change control – Time and Cost effects; procurement; progress updates and measurement.
- **Dispute Resolution:** Claims management and strategic advice; quantum evaluation of additional cost; preparation of extension of time; preparation of statement of case for arbitration or litigation.
- **Private Experts:** CML most senior qualified personnel are experienced in undertaking private expert roles. CML experts are able to provide independent reports that validate the Party's methodology and calculations for both additional cost and delay. The private experts report will assist both the Judge and the court appointed expert to clearly understand a Party's position. The expert report strengthens a Party's position in that it has been validated by an independent qualified experience professional.

All Contractor's and Investor's claims procedure are done by **CML** according to FIDIC Contract Condition (Red Book, Yellow Book Design & Build) and Polish Public Procurement Act and World Bank procedures.

More information about **CML** services, you could find at <http://www.cml.eu.com> and/or contacting EU Project through tel.: [+48 22 400 0303](tel:+48224000303) and e-mail: eu.projects@cml.eu.com

AREAS OF ACTIVITY

Market application

- Aviation
- Automated Road Transport
- Urban Mobility
- Waterborne Transport
- Logistics
- Socioeconomic & Behavioural
- Green Vehicles
- Safety
- Infrastructure

H2020 2017 Call Topics - Aviation

- MG-1.2-2017: Reducing aviation noise
- MG-1.4-2016-2017: Breakthrough innovation
- MG-1.5-2016-2017: Identification of gaps, barriers and needs in the aviation research
- MG-1.3-2017: Maintaining industrial leadership in aeronautics

H2020 2017 Call Topics - Automated Road Transport

- ART-01-2017: ICT infrastructure to enable the transition towards road transport automation
- ART-03-2017: Multi-Brand platooning in real traffic conditions
- ART-07-2017: Full-scale demonstration of urban road transport automation

H2020 2017 Call Topics - Urban Mobility

- MG-4.1-2017: Increasing the take up and scale-up of innovative solutions to achieve sustainable mobility in urban areas
- MG-4.2-2017: Supporting 'smart electric mobility' in cities
- MG-4.3-2017: Innovative approaches for integrating urban nodes in the TEN-T core network corridors

H2020 2017 Call Topics - Waterborne Transport

- MG-2.1-2017: Innovations for energy efficiency and emission control in waterborne transport
- MG-2.4-2017: Complex and value-added specialised vessels

H2020 2017 Call Topics - Logistics

- MG-5.2-2017: Innovative ICT solutions for future logistics operations
- MG-5.4-2017: Potential of the Physical Internet

H2020 2017 Call Topics - Safety

- MG-3.2-2017: Protection of all road users in crashes

H2020 2017 Call Topics - Socioeconomic & Behavioural

- MG-8.2-2017: Big data in Transport: Research opportunities, challenges and limitations
- MG-8.4-2017: Improving accessibility, inclusive mobility and equity: new tools and business models for public transport in prioritised areas
- MG-8.5-2017: Shifting paradigms: Exploring the dynamics of individual preferences, behaviours and lifestyles influencing travel and mobility choices

H2020 2017 Call Topics - Green Vehicles

- GV-01-2017: Optimisation of heavy duty vehicles for alternative fuels use
- GV-04-2017: Next generation electric drivetrains for fully electric vehicles, focusing on high efficiency and low cost
- GV-05-2017: Electric vehicle user-centric design for optimised energy efficiency
- GV-06-2017: Physical integration of hybrid and electric vehicle batteries at pack level aiming at increased energy density and efficiency
- GV-07-2017: Multi-level modelling and testing of electric vehicles and their components
- GV-08-2017: Electrified urban commercial vehicles integration with fast charging infrastructure
- GV-09-2017: Aerodynamic and flexible trucks
- GV-10-2017: Demonstration (pilots) for integration of electrified L-category vehicles in the urban transport system

H2020 2017 Call Topics - Infrastructure

- MG-7.1-2017: Resilience to extreme (natural and man-made) events
- MG-7.2-2017: Optimisation of transport infrastructure including terminals
- MG-7.3-2017: The Port of the future
