### ABOUT US

Centre for Social Innovation (ZSI) is a private, non-profit research organisation with a focus on areas such as RTDI policies, internationalisation, participatory design, inclusion and others. We transfer our methodological know how (see [https://www.zsi.at/en/competence/methods\\_and\\_skills](https://www.zsi.at/en/competence/methods_and_skills)) to different topics ([https://www.zsi.at/en/competence/thematic\\_areas](https://www.zsi.at/en/competence/thematic_areas)) and regions ([https://www.zsi.at/en/competence/geographical\\_regions](https://www.zsi.at/en/competence/geographical_regions)). Our interdisciplinary staff of around 50 employees deals with international projects all around the world and is engaged in Horizon 2020, INTERREG and other programmes.

ZSI coordinates the Danube-INCO.NET project ([www.danube-inco.net](http://www.danube-inco.net)) but also projects dedicated directly to energy and bioeconomy policies, for example: [ENER2I](#) (Energy Research to Innovation) which we coordinate or the [consultation](#) on inputs related to the Austrian bioeconomy strategy (in cooperation with BOKU).

### AREAS OF ACTIVITY

#### SERVICES

- Research

#### **Social scientific know-how and project management**

We are involved in strategy development, foresight, consultation processes and involved in the discussions on bioeconomy R&I policies. As a social scientific institute, we provide a participatory, innovative way of looking at processes related to bioeconomy, energy efficiency, climate change, etc.
